

**Learn at Home with PBS KIDS**

# **Celebrating Fall**

# **BINGO**

# Learn at Home with PBS KIDS

**Week of  
October 19th**

## **Hello, Families!**

Welcome to **"Learn Along" Bingo!** We're happy to share PBS KIDS activities with you and to work with PBS member stations and community partners across the country to help support learning at home. With "Learn Along" Bingo, children can view, explore, and play as they learn alongside their PBS KIDS friends on the PBS KIDS 24/7 channel. We hope your family will use it to inspire learning each and every day.

### **It's Celebrating Fall Week!**

In this packet, there are printable activities and everyday learning ideas for you and your child to choose from. As you complete each square, mark it off to celebrate the learning.

### **Learning Spotlight: "Investigating Plants"**

This week, we're learning how to investigate plants. We will observe different plants, ask questions, and take steps to answer the questions.

### **Show What You Know: Signs of Fall**

The last activity in this packet is a perfect way for children to show what they've learned about investigating plants with a grown up.

**Tune in:** Watch NATURE CAT at 12pm EDT on Tuesday, October 20th on the PBS KIDS 24/7 channel.

Ready for more? Watch your favorite PBS KIDS shows on the 24/7 channel and live stream at [pbskids.org/video/livetv](https://pbskids.org/video/livetv) or on your local PBS station.

**Happy learning!**

# Celebrating Fall

# BINGO

**Daisy's Garden**

**Play, "I Spy Signs of Fall." What in nature are clues that the season is changing?**

**Make Tracks**

**Collect 10 leaves. How are they all alike? How is each unique?**

**Signs of Fall**

**How is the weather in Fall different from Spring? Tell someone.**

**It's Slime Time**

**Write a poem using the words: Autumn, season, weather, and colors.**

**Spooky Scavenger Hunt**

**Grades 1-2**

**Find more games and activities at [pbs.org/parents/learn-at-home](https://pbs.org/parents/learn-at-home)**

## Daisy's Garden

To survive and thrive, plants need light, air, water, nutrients, and space.

### TALLY HO! LET'S HAVE FUN!

1. Color and then cut out the plants and characters.
2. Identify which plants are vegetables and which are flowers. How many can you name?
3. Think about how they are similar and what makes them different.
4. Arrange the cut outs in the garden just the way you like.

## Daisy's Garden

# Make Tracks

\_\_\_\_\_  
Name

When you walk in wet sand, snow or mud, you leave behind a footprint. Animals do, too! We call those prints "tracks" and you can look for them on the ground the next time you're exploring!

You can also make your own tracks to compare with other prints! Using crayons or markers, make YOUR nature tracks.

## What You Need:

- Crayons or markers
- Colored paper pieces
- Poster board (if you want to make a collage of tracks)
- Safety scissors
- Tape or glue

## What to Do:

- 1. Trace your hand or foot:** Be very still and ask someone to trace your hand or foot with a crayon or marker.
- 2. Switch places:** Now help your partner trace their hand or foot.
- 3. Color your tracks:** Use crayons or markers to color in your tracks however you like!
- 4. Make tracks:** Trace more handprints and footprints on paper. Cut out each one and paste them to make a handprint or footprint wreath.

**Find more games and activities at [pbskidsforparents.org](http://pbskidsforparents.org)**

# IT'S SLIME TIME!

**DIFFICULTY: EASY (REQUIRES ADULT SUPERVISION)**

It's gooey and sticky and squishy! It's slime! Plants, animals – even you – make a kind of slime to help stay healthy. Nature Cat, Daisy, Squeeks, and Hal used slime to keep Ronald away from Nature Cat's favorite ball of yarn. Here's how YOU can make super squishy edible slime. What will you use it for?

## MATERIALS

- Two cups water
- Three heaping teaspoons of Tapioca Flour (also called Tapioca Starch)
- All natural food coloring (optional)
- One teaspoon small pearl tapioca (optional) (works best if you soak in water for several hours before cooking)
- Saucepan
- Wooden spoon
- Heat-safe bowl

## LET'S MAKE SOME SLIME!

- 1 Combine the water and tapioca in a saucepan and stir until dissolved. Add five drops of food coloring (optional).
- 2 Bring to a boil over medium-high heat while stirring constantly. You will notice the color change from opaque to transparent.
- 3 Reduce heat and continue cooking for 5 to 10 minutes.

**For more printables, go to [pbskidsforparents.org](http://pbskidsforparents.org)**

# Nature CAT

- 4 As the mixture starts to thicken, use the spoon to scrape along the bottom and the sides.
- 5 When the slime is ready, pour into a heat-safe bowl and let cool. Less time will produce a more liquid-like slime. Boiling the mixture longer will make it gooier. It's up to you! The mixture will continue to thicken overnight.
- 6 It's Slime Time!

## A CLOSER LOOK AT SLIME

What does the slime feel like?

Is it a liquid like water?

Or is it solid like a rock?

## NOTE FOR PARENTS AND TEACHERS

- This activity can also be done with a microwave, by putting the ingredients in a bowl and microwaving for three to four minute intervals. Stir and check for desired consistency between each heating.
- The disadvantage here is that children can't watch the thickening process as it shifts from liquid to semi solid.

For more printables, go to [pbskidsforparents.org](http://pbskidsforparents.org)

## Spooky Scavenger Hunt

Go on a spooky scavenger hunt to find these items:

- ☐ A spider web
- ☐ Something prickly
- ☐ A black cat
- ☐ A leaf the color of a pumpkin
- ☐ Something slimy
- ☐ A bug
- ☐ Something wet
- ☐ A full moon
- ☐ Something that smells bad

### Nocturnal Nonsense

Nocturnal animals use ALL their senses to help guide them around in nature when it's dark at night. Take turns with someone else to experience what it's like to be nocturnal.

- Use a soft cloth or a bandana to cover your eyes.
- Have your partner place a mystery item in your hands.
- Use your senses of smell, touch, and hearing to guess what the item is.
- Take a peek and see if you guessed correctly!
- Trade places with your partner and let them take a turn guessing.

How many did you guess correctly? \_\_\_\_\_

How many did your partner guess correctly? \_\_\_\_\_

What made it easy or difficult to guess the mystery items? \_\_\_\_\_

# Signs of Fall

Name \_\_\_\_\_

The next time you're outdoors, exercise your powers of **observation**, or paying careful attention, to notice the world around you. What signs of Fall do you see? You can use a **journal**, or a written record of your observations and thoughts. Try it out with this nature journal. Make drawings and notes of what you see and record your thoughts. Did you see anything unexpected? Don't forget, you can ask someone else to lend a hand if you need help with the words you want to write in your journal.

## What I Observed
