Learn at Home with PBS KIDS

Growing as a Reader

BINGO
Hello, Families!

Welcome to Learn Along Bingo! We’re happy to share PBS KIDS activities with you and to work with PBS member stations and community partners across the country to help support learning at home. With Learn Along Bingo, children can view, explore, and play as they learn alongside their PBS KIDS friends on the PBS KIDS 24/7 channel. We hope your family will use it to inspire learning each and every day.

**It’s Growing as a Reader Week!**

In this packet, there are printable activities and everyday learning ideas for you and your child to choose from. As you complete each square, mark it off to celebrate the learning.

**Learning Spotlight: Growing as a Reader**

Good readers look at all features on the page: words, pictures, captions, and informational graphics. Once we learn to read, we then read to learn.

**Show What You Know: Book Review**

The last activity in this packet is a perfect way for children to choose a book that they have read and write a review to share with others.

**Tune in:** Watch DANIEL TIGER’S NEIGHBOHOOD at 3:30pm CT on Tuesday, March 2nd on the PBS KIDS 24/7 channel.

Ready for more? Watch your favorite PBS KIDS shows on the 24/7 channel and live stream at pbskids.org/video/livetv or on PBS Wisconsin.

**Happy learning!**

Reading is full of opportunities to play and learn! Here are a few ways that you can explore new stories, new characters and new ideas:

- **Sing songs together:** Pick one of your favorites or make up silly versions to tunes you all know.

- **Share stories:** Share a story with your child and ask them to share one with you. This is a fun way to build valuable literacy skills.

- **Find words and letters around you:** Invent daily word challenges. For instance, ask your child to search for words that start with the letter “s” today. Tomorrow, focus on words that start with “t.”

- **Explore the outdoors:** Invite your child to write down (or draw) some of the interesting discoveries they find outside. This will help build language and science skills while encouraging creativity.
