

Week of April 12th

Hello, Families!

Welcome to **Learn Along Bingo**! We're happy to share PBS KIDS activities with you and to work with PBS member stations and community partners across the country to help support learning at home. With Learn Along Bingo, children can view, explore, and play as they learn alongside their PBS KIDS friends on the PBS KIDS 24/7 channel. We hope your family will use it to inspire learning each and every day.

It's Dinosqurs Week!

In this packet, there are printable activities and everyday learning ideas for you and your child to choose from. As you complete each square, mark it off to celebrate the learning.

Learning Spotlight: Dinosaurs

Paleontologists identify dinosaurs by looking at fossils and comparing their physical characteristics. Children will describe dinosaurs by their sizes and shapes.

Show What You Know: Comparing Dinosaurs and Animals

The last activity in this packet is a perfect way for children to learn about how dinosaurs were unique.

Tune in: Watch MOLLY OF DENALI at 1:30pm CT on Tuesday, April 13th on the PBS KIDS 24/7 channel.

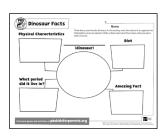

Ready for more? Watch your favorite PBS KIDS shows on the 24/7 channel and live stream at pbskids.org/video/livetv or on PBS Wisconsin.

Happy learning! PBS KIDS

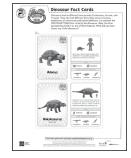

Dinosaurs

Dinosaur Facts

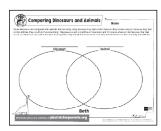

Velociprators had feathers and could not fly. Make a list of feathered animals that can't fly.

Dinosaur Fact Cards

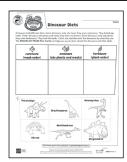

Build a dinosaur from recyclable materials.

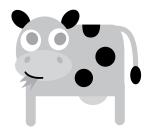

Comparing Dinosaurs and Animals

Research a dinosaur and design a poster to show what you learned.

Dinosaur Diets

Make a collage of present-day animals that are herbivores.

Dinosaur Discoveries

Grades 1-2

Dinosaur Fact Cards

Dinosaurs lived in different time periods (Cretaceous, Jurrasic, and Triassic). They also had different diets (they were carnivores, herbivores, or omnivores) and looked different. Cut and sort the DINOSAUR TRAIN fact cards by the dinosaurs' diets, the time periods they lived in or any of their features. What did you learn about any of the dinosaurs?

Find more games and activities at pbskidsforparents.org

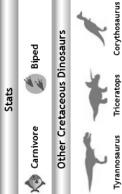

Deinonychus was a dinosaur around four feet runner, with a large, curved claw on the second tall—just about your size! It was a pretty fast toe of each foot.

Other Triassic Dinosaurs

Biped

Stats

This dinosaur from the Cretaceous may have been an omnivore. That means it could have eaten plants—like fruits and leaves and animals like insects, small reptiles and mammals, maybe even eggs.

Dinosaur Diets

Dinosaurs had different diets. Some dinosaurs only ate meat; they were carnivores. They had sharp teeth. Other dinosaurs ate plants and meat; they were omnivores. Some dinosaurs only ate plants; they were herbivores. They had flat teeth. Color, cut and then sort the dinosaurs by what they ate. The **DINOSAUR TRAIN Fact Cards** can help you as you learn about the dinosaurs and their diets.

carnivore (meat-eater)	omnivore (ate plants and meats)	herbivore (plant-eater)

Comparing Dinosaurs and Animals

Name

Some dinosaurs are compared with animals that are living today because they had similar features (they looked alike) or because they had armor or their horns.) Choose a dinosaur and a present day animal and think about how they are the same, but also how they are different. similar abilities (they could do the same thing). Stegosaurus and armadillos or triceratops and rhinoceros share similar features (like their

Schedule Begins October 5, 2020

Explore reading, math, science, life lessons, and more on the PBS KIDS 24/7 channel and live stream! The TV schedule below offers you and your child a chance to learn anytime alongside your favorite PBS KIDS characters.
